Contents

Contents

1	Executive Summary and Conclusions.....	17
1.1	About this Report	18
1.2	Introduction.....	18
1.3	Summary of Market Forecasts	18
1.4	Conclusions	19
2	Market Drivers	21
2.1	Market Drivers.....	22
3	Wave & Tidal Current Stream – Introduction.....	27
3.1	Classification of Devices	28
3.2	Technology Development.....	34
3.3	Key Markets	35
3.4	Wave & Tidal Mooring Systems	36
4	Market Issues	43
4.1	National Market Mechanisms	44
4.2	Utility Company Involvement	52
4.3	R&D and Test Sites	56
4.4	Supply Chain Development	61
4.5	Manufacturing.....	61
4.6	Installation.....	62
4.7	Operations & Maintenance	64
4.8	Costs	65
4.9	Survival	65
5	Wave.....	67
5.1	Introduction.....	68
5.2	Available Resource	70

5.3	Development History	77
5.4	Technology Overview	78
5.5	Wave Energy Devices	83
6	Tidal Current Stream	115
6.1	Introduction	116
6.2	Available Resource	119
6.3	Technology Overview	125
6.4	Tidal Current Devices	127
7	Market Forecasts	151
7.1	Wave & Tidal Current Stream.....	152
7.2	Wave.....	158
7.3	Tidal Current Stream.....	162
8	Appendices.....	167
8.1	Wave Device Developers.....	168
8.2	Tidal Device Developers.....	172

Contents

Figures

Figure 1: Wave & Tidal Current Stream – Installed Capacity 2004-2013	18	Figure 35: Turret Mooring System	39
Figure 2: Global Energy Demand 1930-2007	22	Figure 36: Single Point Mooring.....	39
Figure 3: Global Oil Demand and Supply	22	Figure 37: Dynamic Positioning System.....	39
Figure 4: Global Oil Production 1930-2050	23	Figure 38: Fall of Warness Tidal Site	57
Figure 5: Global Gas Production 1930-2050	23	Figure 39: Bay of Fundy, Canada	58
Figure 6: Horizontal Axis Turbine TCD.....	28	Figure 40: NaREC Wind Energy Hall	59
Figure 7: SeaGen Device	28	Figure 41: Wave Hub Concept.....	60
Figure 8: Vertical Axis Turbine TCD.....	28	Figure 42: A2Sea Vessels <i>M/V Sea Energy</i> & <i>M/V Sea Power</i> at Horns Rev ..	62
Figure 9: EnCurrent Device	29	Figure 43: <i>OpenHydro Installer</i> during construction	62
Figure 10: Venturi Effect TCD.....	29	Figure 44: The Nexans “Spider” seabed cable burial system.....	63
Figure 11: Rotech Tidal Turbine (RTT)	29	Figure 45: OpenHydro's Open-Centre Turbine at EMEC, Scotland	64
Figure 12: Oscillating Hydrofoil TCD.....	29	Figure 46: Marine Current Turbines’ SeaGen Device at Strangford Lough, Ireland.....	64
Figure 13: bioSTREAM™ Device.....	30	Figure 47: Fractured Force Transducer after Force 11 storm and View of Transducer in Position.....	66
Figure 14: Attenuator WEC.....	30	Figure 48: Wave Anatomy	68
Figure 15: Pelamis	31	Figure 49: Refraction in shallow water	69
Figure 16: Point Absorber WEC.....	31	Figure 50: “WorldWaves” Wave Energy Map (kW/m)	70
Figure 17: Aegir Dynamo.....	31	Figure 51: UK Wave Model wave height forecast (m).....	71
Figure 18: Oscillating Wave Surge Converter WEC	31	Figure 52: UKMO Supercomputer.....	72
Figure 19: Oyster ® Device	32	Figure 53: Irish Sea wave (H_s) model.....	72
Figure 20: OWC WEC	32	Figure 54: Africa wave power map.....	73
Figure 21: OE Buoy.....	32	Figure 55: Asia wave power map.....	73
Figure 22: Overtopping Principle.....	32	Figure 56: Australasia wave power map	74
Figure 23: Overtopping Device WEC	33	Figure 57: North America wave power map	75
Figure 24: Wave Dragon Prototype Device	33	Figure 58: South America wave power map.....	75
Figure 25: Submerged Pressure Differential WEC	33	Figure 59: Europe wave power map	76
