Contents

1	Executive Summary and Conclusions.....	15	5.4	Conversions vs. Newbuilds.....	66
2	The LNG Industry	23	6	Moorings and Transfer Systems	67
2.1	Liquefied Natural Gas.....	24	6.1	Mooring Systems	68
2.2	Chemical Properties of LNG	24	6.2	Offloading Systems	71
2.3	The LNG Chain – Onshore & FLNG Comparison.....	25	6.3	Salt Cavern Storage	76
2.4	Continuing Growth of the LNG Industry.....	27	7	FLNG Companies	77
3	Why Floating LNG?	29	7.1	Aker Solutions.....	78
3.1	Increasing Long-Term Gas Demand	30	7.2	BW Offshore	79
3.2	Gas Supply.....	31	7.3	ConocoPhillips	80
3.3	Onshore vs Offshore.....	34	7.4	Excelerate Energy	81
3.4	Stranded Gas Fields.....	35	7.5	Gasol	82
3.5	Associated Gas Fields	36	7.6	GDF Suez	82
3.6	Environment Issues	36	7.7	Golar LNG	83
3.7	Security Issues	36	7.8	Flex LNG	84
3.8	Political Issues.....	37	7.9	Hamworthy.....	84
3.9	Complimentary Technology	38	7.10	Höegh LNG	85
3.10	The History of FLNG.....	39	7.11	Inpex Corporation	87
3.11	FLNG Focus Areas	40	7.12	SBM Offshore	88
4	Topsides.....	41	7.13	Shell.....	89
4.1	Liquefaction Processes	42	7.14	Sevan Marine.....	90
4.2	Liquefaction Technology	45	7.15	Technip	91
4.3	Regasification Processes	52	7.16	Teekay Corporation	91
5	Hulls	55	7.17	TORP LNG.....	92
5.1	Hull design concepts.....	56	8	Global Overview of FLNG Activity	95
5.2	Containment Systems	59	8.1	Global View of FLNG Prospects	96
5.3	Shipyard Review.....	64	8.2	Africa.....	97
			8.3	Asia	98

Contents

8.4	Australasia	100
8.5	Eastern Europe and FSU.....	102
8.6	Latin America.....	102
8.7	Middle East.....	104
8.8	North America.....	105
8.9	Western Europe	109
9	Case Studies.....	113
9.1	Bilabri FPSO (Progress LNG), Nigeria	114
9.2	Puk Puk FPSO, Papua New Guinea	116
9.3	Prelude FPSO, Timor Sea	117
9.4	Pecém FSRU, Brazil	118
9.5	Gulf Gateway Energy Bridge RV, USA.....	119
9.6	Teesside GasPort, UK	120
10	Market Forecast.....	121
10.1	Introduction.....	122
10.2	The Forecasting Process	122
10.3	Pricing Procedures.....	123
10.4	Capex Breakdowns	123
10.5	Liquefaction Terminals	125
10.6	Import Terminals	127
10.7	Forecast by Regions	129
10.8	The Global FLNG Market by Component.....	134
10.9	The Global FLNG Market by Service.....	135
10.10	The Global FLNG Market by Facility Type.....	136
10.11	The Global FLNG Market by Region	137
11	Appendices.....	139
11.1	Conversion Tables	140

Contents

Authors

Lucy Miller

Lead Author

Lucy is an analyst with DWL and has conducted market analysis on a variety of DWL's commissioned research projects for clients in the oil and gas sector, as part of commercial due-diligence and published market studies. She has contributed to studies including 'The World LNG Market Report', 'The World ROV Market Report' and the 'Subsea Processing Gamechanger Report'. Recently she has carried out studies of offshore and onshore LNG markets as a part of a major commissioned research project. Lucy has a background in the offshore oil and gas sector and previously worked for FoundOcean Ltd. She has a degree in Economics and Geography from the University of Leicester.

Steve Robertson

Editor

Steve heads DWL's oil and gas team and his experience with DWL since 2002 includes managing many commercial due-diligence studies for investment banks and private equity firms. He is lead author and joint author of several of DWL's published market studies and participated in DWL's industry-leading research in regions such as Russia and the Middle East and technology areas including onshore oilfield services, drilling markets, field development, floating production and subsea processing. Authorship and joint-authorship of published studies includes 'The Russian Onshore Oilfield Services Market Report', 'The World Deepwater Market Report', 'The Subsea Processing Gamechanger Report', 'The World LNG Market Report', 'The World Floating Production Market Report' and 'The World Offshore Drilling Spend Forecast'. Steve is a graduate in Economics & Computing and is a regular speaker on the subject of oilfield services markets at industry events and conferences worldwide.

Ian Jones

Author

Ian is an analyst with DWL, contributing to the firm's commissioned research, commercial due diligence and published market studies in the oil and gas and renewable energy sectors. He has co-authored a number of published studies including 'The World LNG Market Report' and 'The World Wave & Tidal Market Report'. Ian is a social sciences graduate whose previous experience includes working for ExxonMobil and a number of companies in the energy sector.

Paul Newman

Author

Paul is a technical author specialising in the maritime and offshore technology fields, and has co-authored a number of reports for DWL including 'The World ROV Report' and the 'AUV Gamechanger Report'. He has an academic and work background in offshore survey and oceanography and holds a HND in Civil Engineering, a BSc (Honours) in Hydrography and an MSc in Applied Oceanography. He is a member of the Hydrographic Society and IMAREST.

Douglas –
Westwood

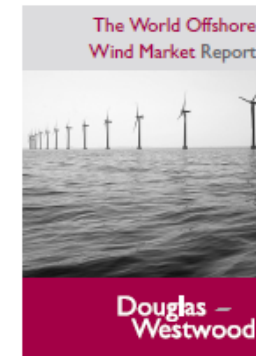

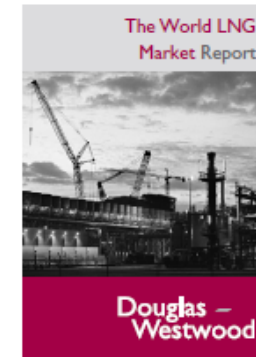

Douglas-Westwood Limited Douglas-Westwood is an independent company that carries out business research for the international energy industries. Its market analysis, surveys and forecasts are used by many of the world's major energy companies, the leading industry contractors and manufacturing companies, financial institutions and government departments. DWL develop and test advanced competitive strategies for new products, new business streams, mergers and acquisitions, through market insights, modelling and simulation. Our research-based approach has been used by clients considering the future direction of their business from a number of perspectives – financial, customer value enhancement, or internal operations. In total, DWL has clients in 60 countries and to date more than 580 projects have been completed in oil & gas, renewable energy, conventional and nuclear power generation.

Other Douglas-Westwood Offerings

Other reports published by Douglas-Westwood:

Other Douglas-Westwood Offerings

Douglas-Westwood Services:

We provide four complementary services:

- **Advisory** – development and facilitation of business development & market strategies;
We work as complementary partners to our clients worldwide as part of their strategic planning process. We develop and test advanced competitive strategies for new products, new business streams, mergers and acquisitions, through market insights, modelling and simulation.
- **Publications** – industry acclaimed energy business market studies;
Our published business research has received accolades from users worldwide. Each of Douglas-Westwood's 'World' studies assumes the reader has no knowledge of the market and both educates and informs and culminates in a five-year forecast by region and industry sub-sector.
The 'Gamechanger' series values the markets for an emerging technology that over the next decade could have transformational impact on a business sector.
- **Research** – on all aspects of the markets for suppliers to the energy sectors;
Business research, analysis and modelling are our core activity. Over the years we have built a huge knowledge base of both sectors and players. Our experience of researching the oilfield equipment & services (OFS) sector is probably unequalled worldwide. We also specialise in emerging markets and technologies such as offshore windpower, wave & tidal, difficult-to-access markets and geographies such as Russia and the Middle East.
- **Transactions** – commercial due diligence on re-financing, M&As and IPOs;
Douglas-Westwood provides services to both buyers and sellers of energy services sector companies. We are the leading provider of commercial and market due diligence on the oilfield equipment & services sector and also provided services to players in upstream and downstream oil & gas, power and renewables. In 2007 alone we provided services worldwide on refinancing, M&A deals and IPOs exceeding \$10bn.
